Respect Life

The potential benefits of adult stem cell research are very considerable, since it opens up possibilities for healing chronic degenerative illnesses by repairing damaged tissue and restoring its capacity for regeneration. The improvement that such therapies promise would constitute a significant step forward in medical science, bringing fresh hope to sufferers and their families alike. For this reason, the Church naturally offers her encouragement to those who are engaged in conducting and supporting research of this kind, always with the proviso that it be carried out with due regard for the integral good of the human person and the common good of society.

~Pope Benedict XVI, Address to the Participants in the "International Conference on Adult Stem Cells: Science and the Future of Man and Culture." November 12, 2011

STEWARDSHIP & ADMINISTRATION:

COLLECTIONS: JANUARY 22, 2012: \$ 5,370.00

THANK
YOU!

Fourth Sunday in Ordinary Time— In today's Gospel we hear proclaimed the beginning of Jesus' public ministry. He teaches. He heals. All are amazed. By their baptism, Christian stewards realize they are called to do the same in their lives. They are called to be the light of Christ each day. As we bring closure to the beginning of this new year, now is a good time to ask the Lord to fill our hearts with courage and faith, so that we too may publicly minister in his name; that we may be liberated from our insecurities and fear so that we can share the Gospel authoritatively and work to heal at least one wounded relationship in the coming months ahead.
